## FREE 6-12<sup>th</sup> Grade Student Resources

### Help your student improve their learning experience!

Here are some free educational resources to help reinforce what your child is learning in class.

Satiate your curiosity and read, or watch, how everything works at <https://www.howstuffworks.com/>. From science to gardening, to how to fill out a money order to what happens if you put sugar in a gas tank, **HowStuffWorks** covers lots of interesting topics to occupy your time!

The logo for HowStuffWorks, featuring the text "howstuffworks" in a white, lowercase, sans-serif font on a dark blue rectangular background.

Practice SAT questions or get a short lesson and practice questions on what was taught in class at <https://www.khanacademy.org/> or download the **Khan Academy** app on your mobile device.

The Khan Academy logo, consisting of a green leaf-like icon to the left of the text "Khan Academy" in a black, sans-serif font.

**CrashCourse** covers all the major subject curriculums you take in high school, so if you need a quick overview on a topic you have a test on tomorrow in class, go to <https://thecrashcourse.com/>!

Practice your typing! Race against others, or yourself, with **TypeRacer** <https://play.typeracer.com/> by typing as fast as you can, as accurately as you can and watch your car pass the finish line!
