

TECH CONNECT TIPS

Cyber Safety

How to Surf the Internet Safely

- Keep personal information private, including:
 - Home address
 - Date of birth
 - School name
 - Phone number
 - Location
 - Parents' names
- Don't use your real name or any other personal information for your screen name.
- Only tell your parents your passwords.
- Ask for permission before you download something. It could be harmful to your device!
- Ask for permission before you buy something online. They may be trying to steal your personal information!
- Don't send or respond to hurtful messages. Let a trusted adult know if you receive any mean or strange messages.
- Don't talk to or send photos to strangers online.

Remember:
Don't believe everything
you see online
