# HEF Tech Connect Tips

Parental Controls

Quick tips to help you have greater protection for your children as they surf the web!
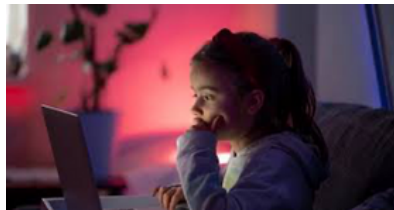

MICROSOFT EDGE:

1.Password generator for Microsoft Edge
Help your kids learn about strong privacy measures from an early age. Receive a highly-secure password suggestion while using Microsoft Edge when you're creating a new account or changing your current password by clicking here.

2.Microsoft Defender Smartscreen
Stay protected while browsing the web with Microsoft Defender Smartscreen. The feature creates a safe environment for you and your kids by blocking phishing (online scams) and attacks from malware (invasive software that destroys and collect sensitive information) attacks. Find out more by clicking here.

GOOGLE

1. Google SafeSearch
In your Google Search results, SafeSearch can help you manage explicit content at work, with children, or for yourself. Explicit results include content like:

- Adult content
- Violence and gore

Learn more about Google Search's content policies here by clicking on this link.
Important: SafeSearch only works on Google Search results. It won't affect explicit content you find on other search engines or websites you can go to directly.
